Discharge Summary or Shared					
Health Summary).					

The information in the Medicines Information View is gathered from:

- The patient's most recent (and up to two years') **Prescription and Dispense records** and other **PBS claims information**
- The patient's most recent Shared Health Summary and Discharge Summary
- Recent Event Summaries, Specialist Letters and e-Referral notes uploaded to the patient's record since their latest shared health summary, and
- The patient's **Personal Health Summary** that may include any allergies or adverse reactions and other key information.

If available, a link to the **Pharmacist Shared Medicines List** will also be provided in the Medicines Information View.
